Residence Agreement & Expectations: International Quarantine Stay Students

You have been identified for quarantine for the next 14 days as per the Government of Canada Quarantine Act.

Your health and the health of others are of the utmost importance to us. For us to care for you and others around you properly, we ask that you abide by the following rules for the next 14 days while in quarantine.

The terms quarantine and isolate are used throughout this document. They are defined as follows:

**Quarantine** – Quarantine for 14 days if you have no symptoms and any of the following apply:
- You are returning from travel outside Canada (mandatory quarantine)
- You had close contact with someone who has or is suspected to have COVID-19
- You have been told by the public health authority that you may have been exposed and need to quarantine

**Isolate** – You must isolate if any of the following apply:
- You have been diagnosed with COVID-19, or are waiting to hear the results of the lab test for COVID-19
- You have symptoms of COVID-19, even if mild
- You have been in contact with a suspected, probable, or confirmed case of COVID-19
- You have been told by public health that you may have been exposed to COVID-19
- You have returned from travel outside Canada with symptoms of COVID-19 (mandatory)

**Policies and Procedures**

**Monitor for Symptoms**
The student will report to McMaster Housing & Conference Services, at hcshelp@mcmaster.ca immediately if they develop symptoms or suspect they may have contracted COVID-19. The student understands that this information may be shared with McMaster staff on a need to know basis for health and safety and/or public health reasons. The student shall comply with isolation requirements as directed by McMaster and the student understands and agrees that failure to do so may result in the student’s removal from McMaster residence.

When having symptoms of COVID-19 or if the student has tested positive for COVID-19, the student shall complete the COVID-19 Reporting Tool in Mosaic. The reporting tile is on the home page of Mosaic.

**Emergency Contact**
Where behaviour, personal security or health issues are of serious concern, McMaster Housing and Conference Services reserves the right to notify the “emergency contact” name listed on the student’s residence application. In these circumstances and when the student is under 18 years of age, the parent or guardian will be notified rather than the “emergency contact.”

**Damages/Charges**
All rooms are inspected prior to the student’s arrival for damage and the completed room inspection information is kept electronically on file. Students must report missing items or items in need of repair immediately via their check-ins with McMaster Housing & Conference Services. Students are financially responsible for any damage or losses to their room and/or its contents. Students will be charged for losses, damage, cleaning and/or repairs required during or at the end of their stay.
Pets
The Public Health Agency of Canada currently recommends postponing importing animals and students are typically prohibited from having pets or animals of any kind in residence buildings. A short-term exception can be granted to University policy for up to two pets for international students completing their quarantine period in residence. Students wishing to bring a pet(s) with them will need to provide additional details during the application process.

Special permission for approved service animals will be granted by Housing and Conference Services staff as defined by McMaster University policy.

For any approved animals, students will assume personal and financial responsibility for any damages caused by the animal. This includes, but is not limited to, extra cleaning for animal waste, replacement of damaged furniture, pest control costs, etc.

Ending Quarantine
All students and (if applicable), their co-arriving family need to receive a negative COVID-19 test prior to completing their quarantine. The McMaster Student Wellness Centre (SWC) will administer tests to students in their residence spaces between days nine and eleven of their quarantine. SWC should receive the results of the COVID-19 test prior to the 14th day of quarantine. The SWC nurse will provide a health clearance letter when they have received the negative result and the student has completed a full 14 days of quarantine.

If the student has family members completing quarantine with them, they will also be required to provide proof of their negative tests to the SWC. The SWC reminds students that their co-arriving family members prior to the end of their 14-day quarantine need to arrange COVID testing. Family members quarantining with a student will have their test completed at a local testing site. They are provided appropriate resources including booking information. The SWC will work with them to arrange individual private round-trip transportation to and from the testing site, which is arranged and paid for by McMaster.

All students in quarantine must receive both a negative COVID-19 test and Health Clearance letter from the SWC prior to ending quarantine. The below scenarios apply to students and their co-arriving family.

1. If a student receives a positive COVID-19 test result:
   a. Student will update the SWC and Housing & Conference Services and will commence a 14-day isolation period with Day one as the date of their positive COVID-19 test.
   b. The student will be moved to a new room on a separate floor which is designated as an isolation floor. The student will be required to isolate for an additional 14 days, repeating until a negative result is on file.

2. If a student receives a negative COVID-19 test result:
   a. Student will update the SWC to qualify for Health Clearance.
   b. If the student becomes symptomatic prior to receiving the Health Clearance the student shall complete the COVID-19 Reporting Tool in Mosaic and notify McMaster Housing & Conference Services, at hcs@macmaster.ca. The SWC will follow up with the student to determine next steps and the student may need to be tested for COVID-19 again to qualify to receive the Health Clearance.

Health Disclosure & Clearance
The Student Wellness Centre will provide the student a Health Clearance letter upon completion of quarantine requirements (described in the above section).

The student agrees to consent to the disclosure of the Health Clearance letter between McMaster’s Student Wellness Centre and McMaster’s Housing & Conference Services upon completion of their quarantine period.

Residence Move Out
Students are required to remove all of their belongings; property left in or around residence longer than 48 hours after the student has vacated is considered to be abandoned and will be removed at a minimum cost of $25 to the student. McMaster Housing and Conference Services does not accept responsibility for the storage or safekeeping of any property abandoned in residence.

Students are required to vacate their residence room and return all residence keys/access cards within three hours of receiving a Health Clearance from the McMaster Student Wellness Centre. Residence keys/access cards cannot be transferred, loaned, or duplicated. Students who lose or do not return their residence keys/access cards at the end of their residence stay will be charged $160 for the required lock changes and $25 for each replacement key/access card.
